

COMPLETE SOLUTION FOR **FIRE & SAFETY**

ABU DHABI | DUBAI

FIRE MATRIX

FIRE ALARM & FIREFIGHTING LLC.

APPROVED BY:
GENERAL DIRECTORATE OF CIVIL DEFENCE

ABOUT US

Firematrix Fire Alarm and Firefighting LLC. is a Civil defense approved company by Abu Dhabi Civil Defense, with a strong operational presence in both Abu Dhabi and Dubai. We specialize in the installation, maintenance, and testing of a full range of fire protection systems across the UAE.

As an ISO-certified organization, we deliver end-to-end fire safety solutions, including design, supply, installation, testing, commissioning, and ongoing maintenance. Our expertise covers a wide spectrum of systems such as fire alarm and detection systems, fire pumps, fire sprinkler systems, emergency evacuation systems, FM200 suppression systems, deluge systems, and fire protective coatings.

Our reputation is built on customer trust, recognized certifications, and proven industry expertise. We are committed to delivering reliable, high-performance fire safety solutions that meet the highest standards of quality and compliance.

At Firematrix, our mission is to protect lives and assets through advanced, efficient, and fully compliant fire protection systems. With official approvals and a growing footprint across the UAE, we continue to position ourselves as a trusted leader in fire safety solutions.

We believe that safety is not just a service it is our responsibility. Through continuous improvement, customer-focused strategies, and strong corporate values, we strive to contribute to a safer and more secure environment for businesses, communities, and individuals.

Together, we build a safer future.

VALUES

SAFETY FIRST

Our highest priority is the protection of lives and property.

We believe everyone deserves a safe and secure environment, and we are dedicated to delivering solutions that reflect this value.

INTEGRITY

We conduct our business with the highest ethical standards.

Transparency, honesty, and accountability form the foundation of our relationships with clients, employees, and stakeholders.

COLLABORATION

Our team is the foundation of our success. We cultivate a culture of continuous learning, collaboration, and professional development, ensuring our people are equipped with the latest knowledge and skills.

CUSTOMER-CENTRIC APPROACH:

Understanding our clients' unique needs is at the heart of our services. We collaborate closely with each client to deliver tailored solutions that meet their specific requirements.

WHY CHOOSE US?

AUTHORIZED & APPROVED

We are fully authorized and approved by Civil Defense authorities to deliver advanced, reliable fire protection solutions that meet the highest safety standards.

EMERGENCY RESPONSE TEAM

We operate a 24/7 emergency response unit to ensure immediate assistance and reliable support for our customers in critical situations.

EXPERIENCED & COMMITTED

Our team of highly skilled professionals is dedicated to delivering accountability, transparency, and customer satisfaction.

PRIORITIZING SAFETY & QUALITY

We strictly adhere to ISO standards to ensure the highest levels of safety, quality, and reliability across all our operations.

PROVEN TRACK RECORD

With over 500+ successful projects executed across Abu Dhabi, Dubai, and other Emirates, we have earned a solid reputation for reliability and excellence.

VISION

Firematrix Fire Alarm and Firefighting LLC aims to be the foremost authority and a global leader in fire protection. We aspire to extend our reach beyond Abu Dhabi and Al Ain, fostering safer environments worldwide. Our vision is driven by a commitment to excellence, sustainability, and a deep responsibility toward the communities we serve.

MISSION

Firematrix Fire Alarm and Firefighting LLC is committed to safeguarding lives and protecting assets through advanced fire protection solutions. Established in 2026 in Abu Dhabi and Dubai, we focus on creating environments that prioritize safety, comply with the highest industry standards, and promote a culture of prevention. Our goal is to be a trusted partner for our clients by delivering innovative, customized fire protection systems while enhancing the safety and well-being of the communities we serve. At Firematrix, our commitment goes beyond services it is a promise to uphold safety as a fundamental right.

MANAGEMENT MESSAGE:

As the economy continues to grow and evolve, the need for a safe, secure, and reliable working environment has become more important than ever. In today's business organizations must not only keep up with changing demands but also consistently deliver quality and reliability. At Firematrix Fire Alarm and Firefighting LLC, our commitment is to meet and exceed industry standards while maintaining a competitive edge—without compromising on service quality or customer satisfaction. We continuously strive to deliver high-quality fire protection solutions that ensure safety, reliability, and peace of mind for our clients.

We are pleased to offer our products and services to our valued clients and future partners. Thank you for your trust. We look forward to a successful and long-term partnership.

Anusha Arumugam

Operations Manager

QUALITY POLICY

Firematrix Fire Alarm & Firefighting LLC is committed to delivering high-quality fire protection solutions in Abu Dhabi and Dubai that meet all regulatory requirements and client specifications. We ensure every project is completed with accuracy, reliability, and within the agreed timeline, focusing on achieving maximum customer satisfaction.

Our operations follow strict quality control procedures, including proper system design, use of approved materials, and thorough testing before handover. Our team is regularly trained to stay aligned with industry standards and best practices, ensuring consistent and dependable performance in all installations and services.

We maintain clear documentation and continuous monitoring to ensure transparency and accountability. Through a structured approach and commitment to improvement, we deliver solutions that meet both technical and safety expectations.

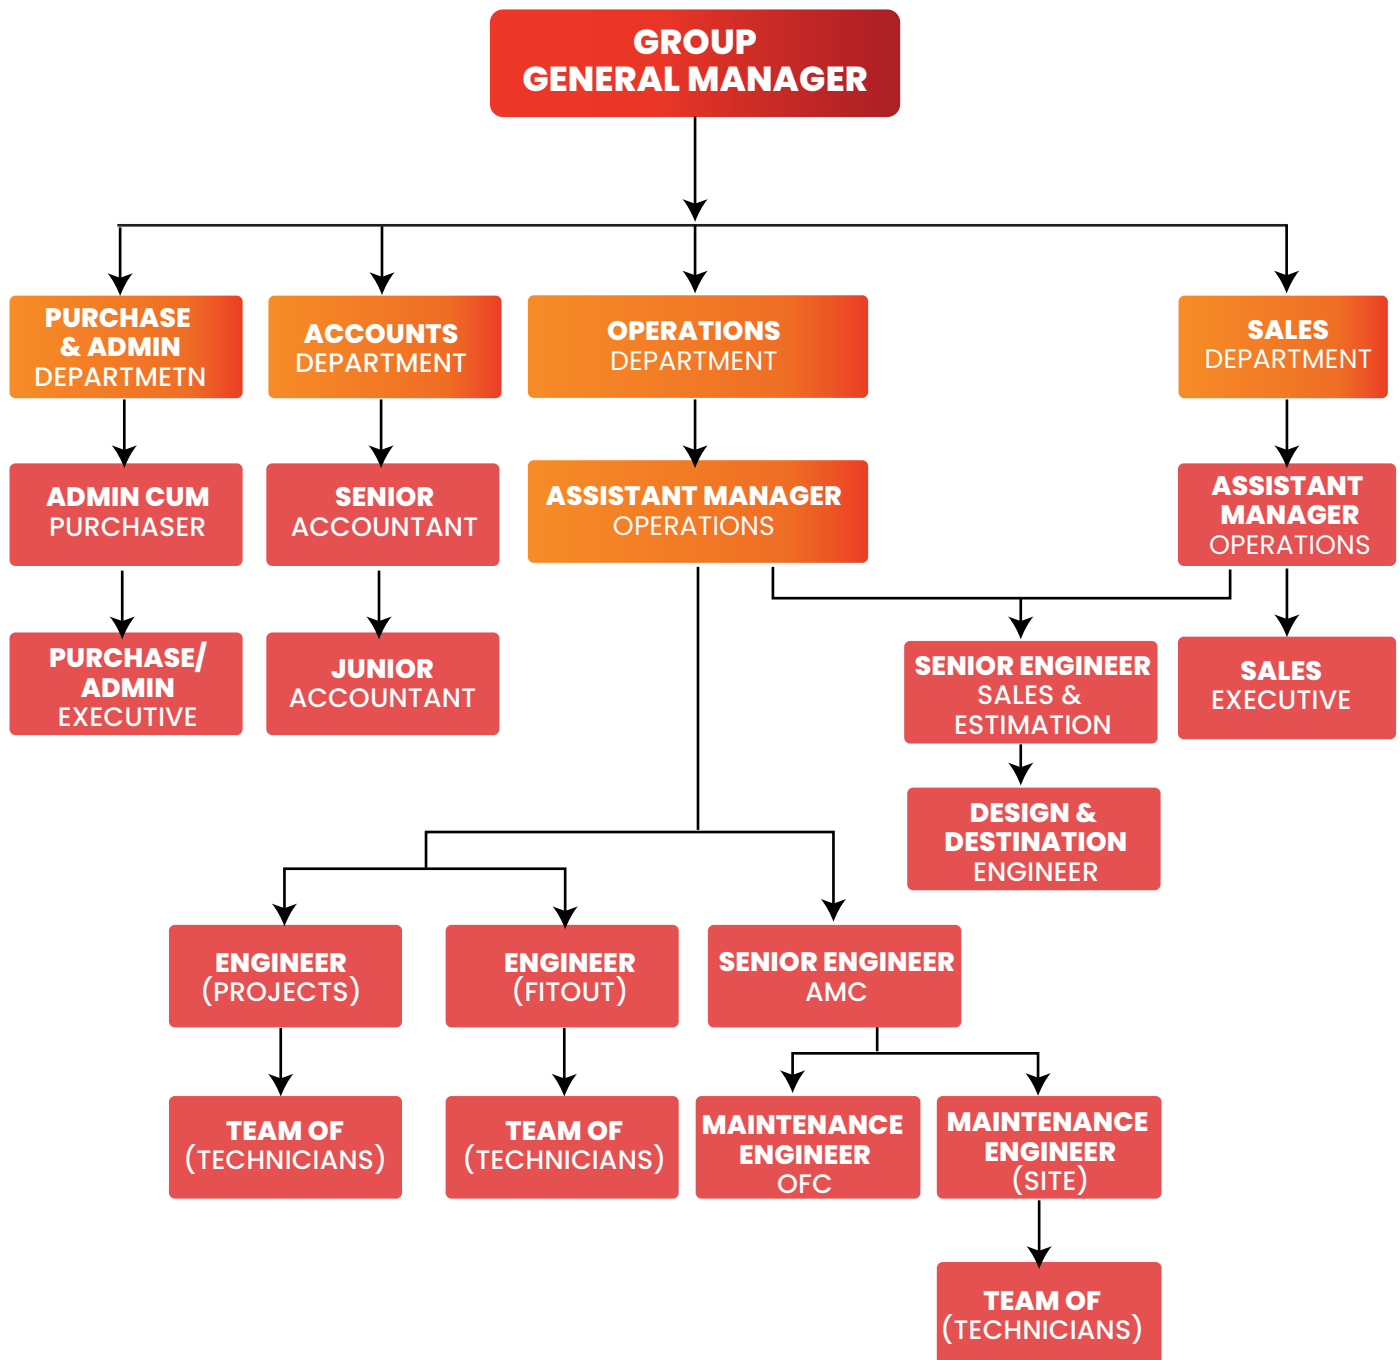

SAFETY POLICY

Firematrix Fire Alarm & Firefighting LLC prioritizes the safety of people, property, and the environment in all operations across Abu Dhabi and Dubai. We are committed to maintaining a safe working environment by following all applicable health and safety regulations and industry standards.

All activities are carried out under strict safety procedures, with proper risk assessment and supervision. Work is immediately stopped if safety conditions are not met. We ensure that all personnel and subcontractors are equipped with appropriate Personal Protective Equipment (PPE) and receive necessary safety training.

By promoting safety awareness and responsibility at every level, we ensure that all projects are executed safely, minimizing risks and protecting everyone involved.

ORGANIZATIONAL CHART

OUR SERVICES

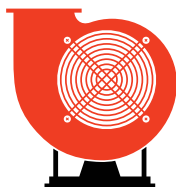

FIRE FIGHTING SYSTEMS

- Fire Extinguishers
- Fire Hose Reel
- Fire Hydrant
- Landing Valve
- Breeching Inlet
- Automatic Sprinkler System (All Types)
- OS & Y, Gate Valves, Y Strainers
- Fire Pump (All Types)

FIRE ALARM SYSTEM

- Fire Alarm System
- Addressable Heat Detectors
- Manual Call Point
- Addressable Sounder with Flashers
- Addressable Beam Detector (Transmitter & Receiver)
- Fire Dampers

SMOKE MANAGEMENT SYSTEM

- Addressable Smoke Detectors
- Smoke Management System
- Interface Modules (Control Module, Monitor Module, Power Supply unit)
- Smoke Management System
- Fire Suppression

EMERGENCY LIGHT MONITORING SYSTEM & CENTRAL BATTERY SYSTEM

- Surface Mounted Emergency Lights
- Recessed Mounted Emergency Lights
- Twin Head Emergency Lights
- Wall Mounted Exit Lights
- Ceiling Mounted Exit Lights
- Hanging Type Arrow with Indication Exit Light

OUR SERVICES

FIRE RATED DOORS & FIRE PARTITIONS

- Fully Glazed Doors
- Acoustic Doors
- Blast Proof Doors
- Wood Finished Steel Doors
- Sliding Doors
- Roller Shutter Doors
- All Type of Fire Doors

FIRE STOP MATERIAL

- Fire Proof Paint
- Fire Sealant

PUBLIC ADDRESS VOICE EVACUATION SYSTEM

- Ceiling Mounted Speaker
- Wall Mounted Speaker
- Projector Type Speaker
- Horn Type Speaker

FIRE SUPPRESSION SYSTEM

- Clean Agent System (FM200 & NOVEC1230)
- Automatic Foam System
- Water Spray System (Deluge System)
- Preaction with Vesda System
- CO System

FIRE PROTECTION SERVICES

Fire protection systems are essential for ensuring the safety of any business. If your operations are exposed to fire risks, having a reliable and well-designed fire protection system in place is critical. At Fire Matrix Fire Alarm & Firefighting LLC, we offer a comprehensive range of fire protection solutions tailored to meet your specific requirements.

OUR SERVICES INCLUDE:

- Supply and installation of firefighting systems
- Supply and installation of fire alarm systems
- Supply and installation of clean agent suppression systems
- Supply and installation of wet chemical systems
- Supply and installation of emergency and exit lighting systems
- Maintenance and servicing of fire extinguisher systems
- Annual Maintenance Contracts (AMC) for fire alarm and firefighting systems

We are committed to delivering high-quality systems that ensure maximum protection for your people, property, and operations. Fire protection plays a critical role in maintaining business continuity. If your operations depend on safe and uninterrupted functioning, it is essential to ensure that your fire protection systems are always in optimal condition. Our experienced team provides professional supply, installation, and maintenance services to ensure your systems perform effectively when it matters most.

From advanced firefighting systems to specialized clean agent solutions, we help you create a safer working environment and minimize fire-related risks across all areas of your business.

FIRE FIGHTING SYSTEM INSTALLATION

We provide reliable and comprehensive solutions designed to equip buildings with high-standard safety systems. Our services ensure effective protection, compliance, and long-term performance.

Below are our key features and the reasons why Fire Matrix Fire Alarm & Firefighting LLC is the right choice for your installation requirements.

KEY FEATURES OF OUR FIRE-FIGHTING SYSTEM INSTALLATION SERVICES

COMPLETE FIRE PROTECTION SYSTEM SETUP:

We provide end-to-end fire protection solutions, including fire sprinkler system installation and fire alarm integration, ensuring seamless alignment with building safety requirements.

INDUSTRIAL FIRE-FIGHTING INSTALLATION:

Designed for high-capacity and industrial environments, our customized solutions include turnkey fire-fighting system installations tailored to complex operational needs.

AUTOMATIC FIRE SYSTEM INSTALLATION:

Utilizing advanced technology, our expert team delivers precise and efficient automatic fire system installations for enhanced safety and reliability.

FIRE HYDRANT AND PUMP INSTALLATION SERVICES:

Our comprehensive services include the installation of fire hydrants and fire pumps, ensuring a dependable water supply and effective emergency response.

EMERGENCY FIRE INSTALLATION SERVICES:

We offer fast and reliable on-site installation services to address urgent fire protection requirements and ensure immediate operational readiness.

CERTIFIED FIRE-FIGHTING INSTALLATION:

All our installations comply with local regulations and international safety standards, guaranteeing fully certified and code-compliant fire safety systems.

FIRE ALARM SYSTEM

For the Fire Alarm System Setup, Fire Matrix Fire Alarm & Firefighting LLC. offers comprehensive solutions tailored to meet the safety requirements of commercial, residential, and industrial properties.

Our services cover every stage, from fire alarm panel installation to ongoing maintenance and repair, ensuring reliable performance and full compliance with safety regulations. We provide end-to-end fire alarm solutions designed to protect lives, property, and operations across all types of environments.

KEY FEATURES OF OUR FIRE ALARM SYSTEM SETUP SERVICES

Fire Alarm Panel Installation : Our experienced team ensures precise installation of fire alarm panels, delivering reliable performance for commercial, residential, and industrial applications.

Customized Fire Alarm Installation : We provide tailored fire alarm solutions, including multi-zone systems and configurations designed to suit specific building layouts and requirements.

Wireless Fire Alarm System Setup : Advanced wireless systems offer flexible, scalable, and efficient fire protection for both residential and commercial properties.

Fire Detection and Alarm Systems : Our solutions include complete fire detection systems with smoke and heat detectors, along with voice evacuation system installation for enhanced safety.

Fire Alarm Retrofitting Solutions : We upgrade and modernize existing systems through specialized retrofitting services, ensuring improved performance and compliance.

Emergency Fire Alarm Setup : We provide fast and efficient installation services for urgent requirements, ensuring immediate fire protection readiness.

Fire Alarm Testing and Maintenance : Regular testing and inspection services ensure system reliability, with optional maintenance contracts for continuous support.

Industrial Fire Alarm Setup Services : Designed for high-demand environments, our industrial solutions are ideal for factories, warehouses, and large-scale facilities.

SMOKE MANAGEMENT SYSTEM

Fire Matrix Fire Alarm & Firefighting LLC provides advanced smoke management and control engineering solutions designed to enhance building safety and performance. Our expertise covers a wide range of systems, including passive smoke compartmentation, shaft and zone pressurization, atrium and floor smoke exhaust systems, as well as post-fire smoke purge solutions.

With extensive experience in complex building environments, our team possesses a deep understanding of fire dynamics and human behavior during emergencies. This enables us to design and implement effective smoke control systems that support both safety and functionality.

We utilize state-of-the-art modeling and simulation tools to analyze smoke movement and occupant evacuation scenarios. By working closely with our clients, we develop cost-effective and efficient smoke control solutions that also provide greater flexibility in architectural design.

The primary objective of a smoke management system is to maintain a safe and breathable environment for a sufficient period, allowing occupants to evacuate safely. Secondary goals include minimizing property damage and reducing business disruption. Achieving these objectives requires careful evaluation and expert analysis to ensure optimal system performance.

Our experienced smoke control and fire protection engineers are dedicated to supporting innovative and complex building designs. Through a performance based design approach, we assess critical variables and develop solutions that align with modern architectural requirements, even in cases where traditional code-based methods may be limiting.

VENTILATION SERVICES

Firematrix Fire Alarm & Firefighting LLC offers reliable Ventilation Installer Services in Abu Dhabi and Dubai, focused on creating safe and well regulated indoor environments. We install high-quality ventilation systems that control airflow, remove contaminants, and maintain balanced air circulation in residential, commercial, and industrial spaces. Our technical team ensures precise execution, using industry grade materials and modern installation methods to deliver long-lasting performance.

Our services are developed in line with Civil Defence requirements, ensuring every system meets safety and compliance standards. We work across a wide range of applications, including restaurants, commercial kitchens, offices, and industrial facilities, where proper ventilation is essential for operational safety and comfort. Each project is handled with a structured approach, from site evaluation and system planning to installation and final testing, ensuring smooth approvals and dependable system functionality.

We focus on delivering customized solutions based on the unique needs of each facility. Our scope includes duct fabrication, exhaust system setup, and integration with existing HVAC and fire protection systems. By optimizing system design and airflow efficiency, we help reduce operational costs while maintaining a clean and healthy indoor atmosphere, making Firematrix a dependable choice for ventilation installation services in Abu Dhabi and Dubai.

EMERGENCY LIGHT MONITORING SYSTEM

RELIABLE SAFETY. SMART MONITORING. INSTANT RESPONSE.

In today's safety-driven environment, having a dependable Emergency Light Monitoring System is not just a requirement it's a critical component of any building's life safety infrastructure. At Fire Matrix Fire Alarm & Firefighting LLC, we deliver advanced monitoring solutions designed to ensure your emergency lighting systems are always operational, compliant, and ready when needed most.

WHAT IS AN EMERGENCY LIGHT MONITORING SYSTEM?

An Emergency Light Monitoring System is an intelligent solution that continuously monitors the status and performance of emergency and exit lights across a building. It automatically detects faults, battery failures, or connectivity issues, ensuring that all safety lighting functions properly during power outages or emergencies.

WHY EMERGENCY LIGHT MONITORING IS ESSENTIAL

Emergency lighting plays a vital role in guiding occupants to safety during unexpected situations such as fire, power failure, or evacuation. Without proper monitoring, faults may go unnoticed until it's too late.

KEY BENEFITS:

- Real-Time Monitoring: Instant detection of faults or failures
- Enhanced Safety: Ensures proper illumination during emergencies
- Regulatory Compliance: Meets local civil defense requirements
- Reduced Maintenance Costs: Early fault detection minimizes repair expenses
- Centralized Control: Monitor multiple systems from a single interface

AMC FOR FIRE FIGHTING SYSTEM

In any building or facility, the installation of fire fighting systems is paramount for safeguarding lives and property in the event of a fire emergency.

IMPORTANCE OF AMC FOR FIRE FIGHTING SYSTEMS:

- 1. Ensures Compliance:** Regular maintenance and servicing of fire fighting systems are essential to ensure compliance with local fire safety regulations and standards. AMC services help keep systems in compliance with relevant codes and requirements.
- 2. Prevents Equipment Failures:** Routine inspections and preventive maintenance carried out as part of an AMC help identify potential issues or malfunctions in fire fighting equipment before they escalate into serious problems. This proactive approach prevents equipment failures during emergencies.
- 3. Maintains Readiness:** Fire fighting systems must be ready for immediate deployment in the event of a fire emergency. Regular servicing ensures that all components are in proper working condition and ready for use when needed, thus enhancing overall safety preparedness.
- 4. Increases Lifespan:** Proper maintenance extends the lifespan of fire fighting systems, reducing the need for frequent replacements and saving costs in the long run. It also ensures the systems perform effectively throughout their service life.
- 5. Enhances Safety:** Well-maintained fire fighting systems play a critical role in safeguarding lives and property during fire emergencies. AMC services contribute to enhanced safety by ensuring the systems operate as intended when required.

CHOOSING A RELIABLE AMC SERVICE PROVIDER:

When selecting an AMC service provider for fire fighting systems, it is essential to consider factors such as the provider's experience, expertise, certifications, reputation, and responsiveness to emergencies. A reputable service provider with a track record of reliability can ensure that your fire fighting systems receive the attention they need to remain effective in protecting your premises.

ANNUAL MAINTENANCE CONTRACTS (AMC) FOR FIRE FIGHTING SYSTEMS.

- 1. Customized Service Plans:** AMC providers often offer customizable service plans tailored to the specific needs and requirements of the client. These plans can include different levels of coverage, frequency of inspections, and response times for emergencies, allowing clients to choose the option that best fits their budget and operational needs.
- 2. Comprehensive Inspections:** Under an AMC, fire fighting systems undergo thorough inspections by certified technicians. These inspections cover all components of the systems, including fire extinguishers, alarm systems, sprinklers, pumps, and piping.
- 3. Compliance Audits:** AMC providers help clients stay compliant with local fire safety regulations and standards by conducting regular compliance audits. These audits ensure that fire fighting systems meet the necessary regulatory requirements and are properly maintained according to industry best practices.
- 4. Performance Testing:** In addition to inspections, AMC services often include performance testing of fire fighting systems. This can involve conducting flow tests for sprinkler systems to ensure adequate water distribution, testing the activation and response times of fire alarm systems, and verifying the effectiveness of fire suppression systems under simulated conditions.
- 5. Emergency Response Planning:** AMC providers may assist clients in developing and implementing emergency response plans tailored to their specific facility and operational requirements. These plans outline procedures for evacuating occupants, notifying emergency services, and coordinating with onsite personnel during fire emergencies.

6. **Training and Education:** Some AMC providers offer training and educational programs for building occupants and staff to increase awareness of fire safety procedures and protocols. This training can include fire extinguisher usage, evacuation drills, and general fire safety awareness to empower individuals to respond effectively in case of an emergency.
7. **Documentation and Reporting:** Comprehensive documentation is a hallmark of AMC services for fire fighting systems. Service providers maintain detailed records of all inspections, maintenance activities, repairs, and tests performed on the systems. This documentation serves as a valuable resource for demonstrating compliance, tracking equipment performance, and facilitating informed decision-making.
8. **24/7 Support:** Many AMC providers offer round-the-clock support and emergency response services to address urgent issues outside of regular business hours. This ensures that clients have access to assistance whenever it is needed, minimizing downtime and ensuring continuity of fire safety operations.
9. **Technology Integration:** Some AMC providers leverage technology, such as remote monitoring systems and predictive analytics, to enhance the efficiency and effectiveness of their services. These technologies enable real-time monitoring of fire fighting systems, early detection of potential issues, and proactive maintenance interventions to optimize system performance.

Technology Integration: Some AMC providers leverage technology, such as remote monitoring systems and predictive analytics, to enhance the efficiency and effectiveness of their services. These technologies enable real-time monitoring of fire fighting systems, early detection of potential issues, and proactive maintenance interventions to optimize system performance.
